YUM

That's what our customers say. Since opening our doors on Oct 5, our customers feedback can be summed up in one word, Yummie! So don't delay come and try for yourself.

To make the best burgers you have to start with the best beef, then prepare and cook it to deliver what we call super succulents. We use 100% organic beef prime cuts from our own farm and we don't pre-cut our tomatoes or buns so they don't oxidise and go soggy. What you get is, OMG YUM!
