Ian Holmes

Comment from Football NSW on Mark Bosnich

Football NSW General Manager Ian Holmes praised Sydney Olympic on acquiring the services of Mark Bosnich.

“Sydney Olympic deserve a great credit for this initiative in bringing into the TeleChoice Premier League one of the most gifted and outstanding players ever to represent Australia. Mark brings with him professionalism, personality and presence rarely seen in an athlete.

“Mark still has the magic which made him the best shot stopper in world football. Those who witnessed Mark in his stint with A-League outfit Central Coast Mariners would have seen glimpses of the skills which took him to the top of professional football in the world.

“The fact Mark is prepared to contribute to State League football is a demonstration of his character and willingness to put back into the game.

“For the players at Sydney Olympic it is an opportunity to be inspired by his presence and to learn from him. For those players who will take the pitch either as his team mates or as his opponents it will be the realization of a dream. Those players will be able to say that they played with or against Mark Bosnich.

“Mark is part of the Parthenon of elite sports people embraced by our multicultural Australian society. Supporters of Sydney Olympic, and their competition opponents will have the rare opportunity to get a close up view of a player who is an integral part of the tapestry of football in this country”.
