

GEORGIA LARDIS

Exceedingly passionate about Greek History, myths and... soccer!

Kicking the ball around and scoring goals is a wonderful past time for 13 year old Georgia Lardis

My Name is Georgia Lardis I attend MLC School and I am in Year 8.

I have many special interests, I enjoy participating in many sports. Playing many

different sports is wonderful, you learn how to work as a team as well as having fun. My most favoured sport is soccer. Kicking the ball around, scoring goals is a wonderful past time. I do many different activities out side of school. I play for the St George Under 14's Women's Representative Super League. also play soccer for the Metro East State Titles team. This is a competition where you play against squads from all around NSW. In this competition my team came second and were undefeated.

I am exceedingly passionate about Greek history and myths. Learning about Greece is wonderful. Last year which was 2008 my family and I travelled to Greece, and enjoyed it so much I brought my passion back with me. My favourite place in Greece was the large island of Crete, my grandmother comes from this traditional island.

My most favoured place in Crete is the Samaria Gorge, this gorge is the largest in all of Europe. This changed the way I look at they world and made me become more environmentally friendly.

One of the proudest moments for my family and I, was when I received my Highly Commended 2009 Ministers Award for Excellence in Student Achievement in Language Schools (Greek). I have attended Greek School since I was 6 years old and my teacher was Mrs Elizabeth Mylonos, has guided me throughout my Greek schooling years.

When I grow up, my occupation is not set. I have two options, to become a Marine Biologist or an Archaeologist. These are my two passions, they are entirely different, but I would love to do them both. My mind is not set on the future but the present.
