

taught me “there is nothing you can not make happen in your life” and thanks to them I have truly created an amazing journey of life.

What title would you give yourself?

Hmmmm- Title; Over worked Mommy - but LOVING every precious moment with my amazing little girl Sofia Agent, Author (I have written 2 books on LOOKALIKE History & HOW TO), Producer, Madonna’s Double, and a girl who wears LOTS of hats

What are you currently working on?

I have my hands in a few different projects at the moment. Most recently is my partnership with Lyndall Grant (Top “Arnold Lookalike” here in the US who is currently starring as “Arnold” in the box office hit 2012). He has designed and created a brand new Entertainment Directory on the Web and it is a very exciting project. It will feature top Performers from around the Globe- It’s name is ABOUT FACE ; <http://www.a-bout-face.com/> and I will be on board as Editor Cheif as well as contributing Editor of Casting Notices, HOW TO Articles, Industry Featured Interviews,

and guiding new talents with Q & A available 24 hours a day. In addition to these features, ABOUT FACE will also be home of a new on-line magazine called, “THE WORLD” and the magazine will feature current industry news, photos, links to Talents, and Talent showcase features called “THE WORLD HAS TALENT”

Other projects I am working on; Booking Celebrity Lookalikes for Events, Television and Film. December is our busiest month and I have my hands full with both booking other Talents and performing as Madonna.

Lastly, I am working on contacting HASBRO Toys to become a spokes person for one of their greatest Toys “Lulu my Cuddlin Kitty” (she is a life like cat who purrs, meows, etc). My wish is to bring Lulu Kitty to sick children in Hospitals, as well as to the elderly in Retirement homes. As I believe fully in the healing powers that animals bring to all, and this toy is a wonderful replacement to the comfort of a real animal for situations where people/or children can not be exposed to a real animal. Also this kitty can stay with the patient all through the night and I believe it would bring happiness and comfort to many. I am in talks with the company now and hope to bring my vision to reality before the Holiday Season. I would voulenteer my time to visit both the children and elderly with my daughter and Lulu.

What do you think about your future?

Future is exciting and many new projects in the work but mainly my goal is to spend as much time with my Father to show him my love and gratitude for all the wisdom he has given to me. And to love and appreciate my parents and family now while my life is blessed to have them. To me family is THE most important blessing life has to offer and there is no “gig” bigger than my family. My daughter is a shining example of God’s amazing blessings. I had her at 42 after Doctors told me I was “too old” to conceive. I am gracious and grateful everyday for my life and all that I am blessed with. Life is truly a magical ride.

Visiting the Ancient city of Petra in Jordan

Petra was a place that the local Beduins knew for years and tried to hide for the rest of the world. They knew it was a place that everybody would like to go and wonder around the narrow streets which are shaped in between huge stones. This is the reason the site is called Petra which in Greek means stone. The Beduins were the last inhabitants of the city and even today there are some who live in the caves of the archaeological site. The Nabateans were the ones that started the city, but the Greek references when somebody is wondering around the narrow streets are endless. The city was abandoned the 6th century ad. Later it was revived by the Romans and then the Byzantines. Greek missions were visiting the city in its early years and Greek people mostly lived there during the early Byzantium years. If somebody wonders around Petra will see many greek columns and Greek names on tombs. Today Petra is one of the largest attractions of the Jordanian Kingdom and attracts thousands of visitors every day. The archaeological site lays on the slope of Mount Hor in a basin among the mountains which form the eastern flank of Arabah (Wadi Araba), the large valley running from the Dead Sea to the Gulf of Aqaba. It is renowned for its rock-cut architecture. Petra is also one of the New Seven Wonders of the World. The Nabataeans constructed it as their capital city around 100 BCE.

The site remained unknown to the Western world until 1812, when it was introduced to the West by Swiss explorer Johann Ludwig Burckhardt. It was famously described as “a rose-red city half as old as time” in a Newdigate prize-winning sonnet by John William Burgon. UNESCO has described it as “one of the most precious cultural properties of man’s cultural heritage.” In 1985, Petra was designated a World Heritage Site.
