## GIVE GREECE A CHANCE

Greece has undertaken the toughest austerity program in modern history. Yet by 2015, citizens and investors have reduced the primary budget deficit from € 24.7 billion to € 12.2 billion in just two years - all with a dramatic impact on the life of every Greek.

A new set of measures was recently voted in by the Greek Parliament. With a focus on structural reforms, we have a chance to create a new Greece - a modern, productive and stable Greece with a sustainable future in Europe.

Further spending is inevitable. Unemployment has already reached 21%. This is a high price to pay and it should not give us vain

We are entering the 8th year of recession. Our European partners have asked us to. But we need continued support and the leadership to get out of this vicious cycle. And we deserve to know that there is a fair chance of success.

We are rebranding, the young citizens identify with challenges to reality. We are entrepreneurs who require to a constructive role within Europe. We are driven by our commitment. We have already made sacrifices. We are ready to do more. We are betting our future on this.

All we are saying is give Greece a chance
