JORGE-SOTIRIOS

"Lonesome George" seeks adventure hungry readers

Travel journalist Jorge Sotirios recently launched his first book, titled: "Lonesome George, Ce'st Moi!". It's a travel adventure and comedy of epic proportions which recounts his travels in South America during 2004-2005 and is told with comic flair – romance, broken hearts and self exploration – and wry humour while illuminating the beauty and culture of Argentina. In his mock heroic quest of self-discovery ending in a confrontation with his alter ego, a giant lovelorn tortoise on the Galapagos Islands, author Jorge Sotirios illuminates the rugged beauty of the South American landscape, interweaving its history, culture and people. Lured to South America by an Argentine beauty only to be left heart-broken, he undertakes a journey of self-discovery that takes him

across the equator, through the Amazon jungle and climaxes in the austere Galapagos Islands where he comes to face his doppelgänger, "Lonesome George", the last surviving tortoise of his species. In his travels author Jorge Sotirios encounters the strange and wonderful world of South America, incorporating angels in Argentina to sham Peruvian shaman, accompanying eco-warriors to far-flung villages, where missionaries co-exist with the cult of Che Guevara, he combines the exotic and dangerous with environmental issues such as oil exploitation, deforestation and drought in the Amazon basin.

Lonesome George, C'est Moi! is South America from street and river level and a life-affirming portrayal of people in this captivating story told with comic flair.

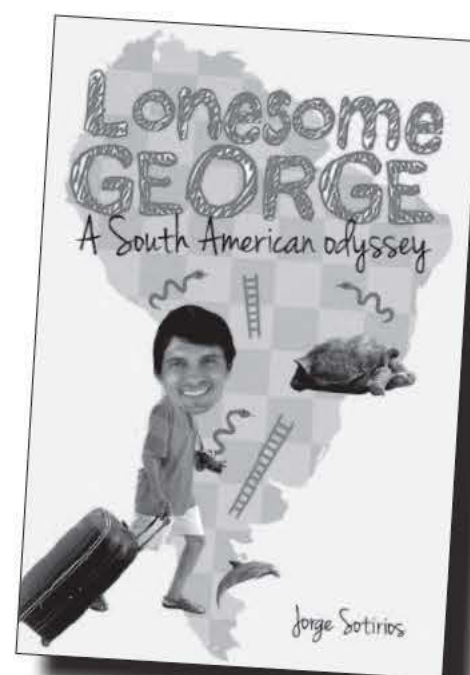

About Jorge Sotirios

Jorge Sotirios was born in the shadow of Bradman Oval in the Southern Highlands of NSW and worked at his father's Mittagong cafe when not obsessively following the St. George Dragons.

Since then he has travelled the globe as travel journalist covering the Arts, the Environment, Politics and Culture and has written for The Sydney Morning Herald and The Australian Literary Review.

Part philosopher, part adventurer and always the clown, Sotirios has travelled to 30 countries working as a foreign correspondent.

"Lonesome George, Ce'st Moi!" is available at selected bookstores and is also available online. For more information please refer to: www.bigskypublishing.com.au

"Jorge Sotirios has his hand on the throttle but allows his passengers a 360 degree view of the world around him. If you go for a ride with him, pack lightly and hold on tight!"
-Tom Miller, author, The Panama Hat Trail

Apple fixes Siri bug that declared Nokia Lumia the best smartphone

Apple has leapt to repair an embarrassing bug that last week caused the personal assistant app Siri to declare that the Nokia Lumia 900 was the best smartphone ever. Last week, some users reported that Siri would spruik the Lumia when asked the question: «What is the best smartphone ever?». But Apple appears to have fixed the embarrassing blip, because after repeated attempts by this website, Siri now only answers with either «You're kidding, right?» or «Wait ... there are other phones?». «Apple position Siri as the intelligent system that's there to help, but clearly if they don't like the answer, they override the software,» said Nokia spokeswoman Tracy Postill. Siri uses search engine WolframAlpha to not only return search results, but to calculate the best response to any given question. Based on customer reviews from across the web, WolframAlpha ranks the Nokia Lumia

A screenshot of Siri declaring the Nokia Lumia 900 to be the best smartphone ever.

900 as the «best» smartphone currently on offer. Apple's iPhone 4S, the only model that Siri appears on, does not feature until number 14 on WolframAlpha's list of best smartphones. Despite the fact that the quirk appears to have been resolved, Apple has not publically confirmed that it has altered Siri's response, and did not respond to requests for comment on the issue.
