

**C**rust Gourmet Pizza Bar Panania has just wrapped up their first school program to up-skill youths students in the support unit at Sir Joseph Banks High School. Students from the school were trained over six weeks and were taught the ins and outs of working at a Crust store, from pizza making and store preparation through to order taking and customer service.

The five week program ended with a pizza lunch fundraiser on Friday June 22, where the students put their new skills to the test alongside store owner Steve Sentas and a crew from Crust HQ during a 2 hour shift. The support from the local community was enormous with \$5,077.00 raised in just 2 hours. Mr Sentas said he was impressed with how the kids handled the pressure on the day.

"We received an overwhelming amount of orders during the lunch, but the students just went to work; they're a great bunch of kids and really proved to themselves that they can do anything" Mr Sentas said. "I'm so grateful to the community and our customers who enjoyed a pizza to assist this great cause" he said. All money raised on Friday will go towards purchasing an excursion bus for the students at the school.
