

**designers + manufacturers of
quality aluminium windows
+ doors + frameless glass
+ curtain wall facades**

**AMA Windows + Glass Facades commenced in 2005,
14 year old company our industry experience dates back to the 1980's
and is borne of Micos Aluminium which commenced in 1958.**

We are specialists in the design and manufacture of architectural commercial grade aluminium windows, doors, curtain walls, and frameless glass entries. Our highly experienced team is committed to producing vast products of the highest standard, and has a combined knowledge base that varies from managing multi-density/high rise to complex commercial buildings. All AMA products are our own proprietary systems that are designed for Australian markets and are independently tested by a NATA approved laboratories, with regards to wind, water, air, operating forces, acoustics and WERS. Furthermore all AMA products specifically comply on a project basis with section J of the BCA. AMA is situated in our impressive facility conveniently located in the Eastern Suburbs. With ample capacity for future expansion and the ability to run multiple large projects simultaneously, we have a dedicated hardstand area for storage of any completed product. Over the last eight years under the direction of current management AMA has commenced production under licence with numerous facilities in China; our in house team tailors each project from beginning to end without any compromise to lead-time or quality. We have full time QA staff overseeing the production, packing, loading of our product all the way through to its final destination. Our "hands on" approach, innovative designs and efficiency is what makes us a preferred candidate when choosing to partner with a Façade subcontractor.
