

cesses every day. Try to be the best you can at every session and do more than just train with your team, train by yourself and do extra.

## OK: Finally, you are of Greek heritage, how important is that to you

JA: I have been lucky enough to go to Greece a few times and every time I go back, I appreciate my heritage more and more.

JA: I feel a great connection to my family members in Greece and every time I go back, I get a sense of how hard it would have been for my grandparents to migrate to Australia at such a young age. Where my family has come from is so important to me and I never forget where my family started. I'm proud of my culture, proud of my roots and proud of the Greek people here in Australia.

OK: Thank you for taking out the time and taking this interview Jonathan all the best with the Wanderers and the Young Socceroos.

JA: Thank you for having me and Merry Christmas to all your readers.
