

George Peponis asks for our vote to be re-elected on the Board of Canterbury League Club

As you may be aware, Canterbury League Club has an upcoming election this Friday 16th & Saturday 17th March. I'm writing to you as the current Chairman of the Board to ask you to attend the Club on either day (between 11.00am - 8.00pm) to vote to re-elect me on the Board of your local Club.

I've been the Chairman of the Club since 2010 & have dedicated my time in the role to improving the Club for its members & giving back to the local community. I'm a Belmore boy through & through. I was raised here, spent my entire rugby league career playing for the Bulldogs & most of my family still live here. I understand the important role the Club plays in the local community & that's why I've been the driving force behind:

- annual community grants of at least \$1 million;
- the \$100 million redevelopment of the Club;
- annual grants to the Bulldogs of at least \$4 million; and
- award winning charity work and community initiatives.

I'm an independent director elected by the members of Canterbury League Club. I ask you to vote to re-elect me to the Board to represent the interests of the Club's 60,000 members, as well as to ensure that the Club is well placed financially now and into the future to support the Bulldogs' quest to win premierships. As a Belmore boy, I'm immensely proud of what the Club does for its members, the Bulldogs & the local community. I'd be honoured to be given the opportunity to continue to give back, as I have done over the last 8 years.

Kind regards
Dr George Peponis OAM

Book launch: A new book by George Michelakakis

"Hope in Crisis"

With Professor Vrasidas Karalis

The Greek Atlas League in collaboration with Eothion Publications present "Hope in Crisis" a new book by George Michelekakis

on Friday 23 March 2018, 6.00 pm

at the Greek Atlas.

The book will be launched by professor Vrasidas Karalis Department of Modern Greek, Sydney Universiti.

Hope in Crisis is a social and ideological history of post war Australia articulated through the study of the works by Greek Australian visual artists and poets.

Michelakakis' work examines three mains themes:

- The difference between culture and art;
- The conflict of values between the nation-state and forces of globalization;
- The aesthetic differences between first-generation migrants and their children.

Using 90 colour photographs of visual art works and dozens of significant poetic works, the book offers an account of Greek migrant art in Australia during an era in which the values of the modern nation-state are under attack from the values of relativism and globalization. From 1971 the author, himself a visual artist, experienced immigration

in an era of rapid social and technological change that marked the end of one historical period and the advent of another.

If you'd like a copy of Hope in Crisis, it will be available to purchase at the event for \$30.
