

MS: How is Ange as a coach?
 AP - There isn't enough space to write all my thoughts about Ange across many levels, I think one day I will even write a book about one of the most fulfilling experiences of a lifetime, if he lets me of course!. In the end I'm humbled he would consider me to be part of his environment and forever grateful for the way he has treated me and allowed me to grow. In the simplest terms, Ange is a world class manager full of self belief, conviction and is the

coach with the most courage and lack of fear that I have encountered, he is so passionate about the game and his ideas of how football should be played are deep rooted and embedded hence there is no alternative,

MS: The achievement of winning the J-League, the first ever Australian coach to ever do this, would sit as one of the biggest wins for the Australian game, what was the recipe for success?
