

## Nyfes, Kores, Gynes Castellorizian Women's Traditional Dress

Tue 18 - Sun 23 May

This exhibition includes photos illustrating the unique dress culture of Castellorizo, which selectively assimilated elements from either the East or the West or both at once. Archival photographs, focusing on the period 1890-1965, will show the garments worn by women on Castellorizo over that period. The myths, charm and origin of Castellorizian dress culture will be enriched by audio-visual material, and a presentation will focus on the history, beliefs and customs of the women who wore them.
